

# DIGITAL CRISIS

AT DIGITAL CRISIS, WE PRIDE OURSELVES ON KEEPING OUR SKILL SETS, TRAINING AND INFORMATION BASE CURRENT IN ORDER TO KEEP UP WITH THE CONSTANT CHANGES TAKING PLACE IN THE TECHNOLOGY WORLD.

Our staff has combined experience of over 20 years, providing outstanding quality customer service. You call a geek and hear them speak "IT Greek", then you try a friend, but in the end you realize you need a professional.

Even though computers help improve our daily lives and how we conduct our business, they also bring pain and headaches with them. The technical world is constantly evolving and with that brings new viruses, hardware and software, but best of all new capabilities. We look forward to servicing every one of your technical needs.

# BUSINESS & RESIDENTIAL

**LET'S SOLVE YOUR PROBLEMS ONCE AND FOR ALL AT HOME OR WORK.**

## IT PROFESSIONALS IN YOUR HOME

Today, many households have a minimum of one computer. As families grow in size, the need for multiple computers will continue to increase. Have you ever wanted to network your entire household? Whether you need a basic wireless network setup or you require advanced file sharing, printer sharing and a host of other services, have it done by a professional. With a professional, you know the job has been done right!

## SATISFYING SMALL BUSINESSES

In our current economy, we understand that in order for small businesses to survive, they need to not only be current with their technologies, but also have resources that are affordable and easy to use. We offer the ability to have IT level experts at a fraction of the cost of having a full time employee. Every company wants to save thousands of dollars, so what are you waiting for? Join the other companies we service today!

# COMPUTERS SLOWING YOU DOWN?

Digital Crisis offers cutting edge technology that is only a phone call away. If you are tired of the sluggish turnaround times of other companies, then look no further. Our number one goal is customer satisfaction with honesty and integrity! If you are currently unsatisfied with the choices you have been accustomed to, it is time to be move on. Digital Crisis is your key to alleviating all of your computer headaches. Look past the "Geeks" or "Friends" and hire a PRO!

## DATA RECOVERY

With a success rate of over 90%, we will recover your most valuable files. With specialized software and techniques, we will bring your files back to life! Speak to a Data Recovery specialist today.

## VIRUS/SPYWARE/ADWARE REMOVAL

The last thing you want is a virus, or spyware and adware corrupting or sending out your most sensitive data. We seek out and destroy these programs as quickly as possible and have your machine back up and running.

## HARDWARE IMPLEMENTATION

Whether you need a wireless network installed, a desktop added, a firewall, or a custom built Server, we will assess your current IT infrastructure and design the perfect solution possible, while staying within your budget.

**FACT: THERE ARE OVER 1,000,000 KNOWN VIRUSES IN EXISTENCE TODAY!**

**PREVENTATIVE MAINTENANCE** greatly reduces the risk of potential problems. There may be underlying issues that you are not aware of and may arise unexpectedly. Increase productivity and maximize uptime.

We can help you find a new computer or laptop, and even design and assemble a Custom Built PC. Not only do we fix your problems, but we also teach and advise all our clients. A computer is much like a vehicle.. If you do not do regular maintenance or take the right precautions, then it will not work properly or last as long.
